
Special-Lite®

Cleanroom Solutions

for Sterile Environments

Doors & Frames with Flush Vision Panels

Special-Lite® Doors and Frames are engineered and manufactured for sterile or controlled environments.

Customized Swing Doors in Singles or Pairs

Special-Lite custom Pultruded Fiberglass, Hybrid FRP, and Aluminum Flush Doors are engineered and manufactured to perform in sterile environments. The construction of our one-of-a-kind Pultruded Fiberglass Doors creates a monolithic structure, hermetically sealed and immune to moisture and corrosive gases or liquids. The resin used in the fiberglass production also complies with all regulatory requirements of the FDA cGMP. Likewise, the finish on these doors makes for easy cleanup.

Add a fully sealed, internal glazed, Flush Vision Panel for a crevice-free, watertight seal (unlike traditional vision lite kits) or choose adjustable privacy with the fully sealed Privacy Flush Vision Panel with an interstitial operable blind, and you have the perfect combination for even the most stringent cleanliness and safety requirements.

Fiberglass & FRP Doors with Flush Vision Panels

- Completely sealed design with superior materials for easy cleaning
- Hygienic design won't harbor bacteria or mold
- Waterproof and chemical resistant, will never rust, rot, or swell
- Backed with a 10 year warranty and a lifetime warranty against corrosion
- Durable and virtually maintenance-free with secure, reliable performance
- Customization options with a variety of colors and accessories
- USDA and FDA cGMP compliant

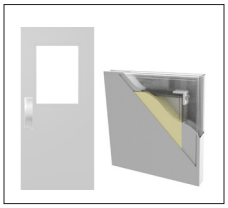
Pultruded Fiberglass Doors and Frames

Smooth Painted

This fully pultruded completely sealed heavy-duty fiberglass door features a closed cell foam core, monolithic design, and extreme strength to weight ratio.



Aluminum Flush Doors

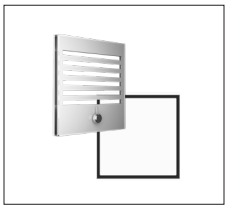
Smooth | Stainless Steel

Heavy-duty yet lightweight aluminum-faced door with tie rod construction and injected structural high-density closed-cell foam core. Stainless steel door face option available.

Composite Fiberglass Doors

Smooth Painted | Pebble Grain | Sandstone

Constructed with strong pultruded fiberglass stiles and rails, EPS foam or polypropylene honeycomb core, and chemically bonded FRP door face. Lightweight and economical.



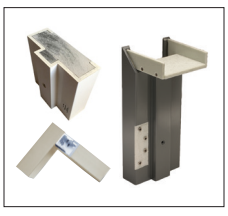
Flush Vision Panels

Customize your door and frame with Flush Vision Panels, or add adjustable privacy with our lightweight Privacy Flush Vision Panels with an internal operable blind. Available in black or white with matching sealant color.

Hybrid FRP Doors

Pebble Grain | Sandstone

Best-selling heavy-duty yet lightweight FRP-faced door with aluminum stiles and rails, rugged tie rod construction, and injected structural high-density closed-cell foam core.



Framing Options

Sealed construction makes Pultruded Fiberglass Framing an ideal substitute to hollow metal frames which are subject to corrosion and other appearance and hygiene issues. Aluminum framing and fiberglass or stainless steel fire-rated framing are also available.

Applications:

- General Cleanroom Environments
- Pharmaceutical Manufacturing
- Semiconductor Manufacturing
- Animal Holding and Care
- Operating Theaters
- Research Facilities
- Food Production
- Laboratories

More Options for Cleanrooms and Labs

Hybrid FRP Double-Acting Traffic Doors

Pebble Grain | Sandstone

Designed for reliability and superior moisture and corrosion resistance in high-traffic openings, without excessive weight. Our variety of FRP face sheet options are durable and easily cleaned.

Interior Sliding Door Systems

Sliding Door Systems reduce the space requirements of door openings, providing more valuable square footage. We take Sliding Door Systems to the next level with added durability, ease of installation, door and hardware selections, and more customization options.

Aluminum Double-Acting Traffic Doors

Smooth | Stainless Steel

Our aluminum- and stainless steel-faced traffic doors provide a sleek yet robust solution that is easy to clean. The door panel features our waterproof, high-density foam-injected core for lightweight strength and durability.

Bathroom Partitions and Shower & Bathroom Stall Doors

Try the Bathroom Partitions based on our best-selling foam injected door technology. For walled compartments, we offer reduced-height, closed toprail 1-3/4" Shower & Toilet Stall Doors.
