LiteSpace®
Demountable Glass Wall System

Minimal Profile
Maximize natural daylight

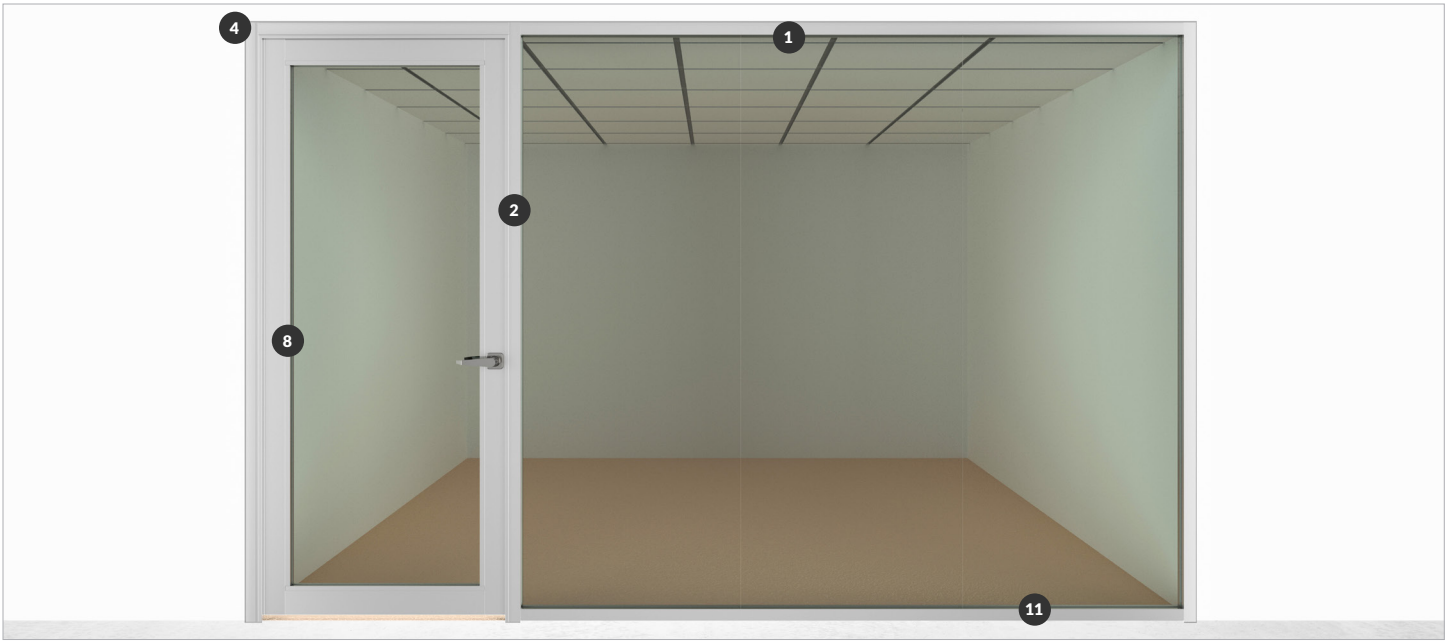

Versatile and Customizable
Finish options, custom doors

Easy, Flexible Installation
Measure and cut in the field for ultimate flexibility

The LiteSpace Interior Aluminum Framing system features sleek, minimalist profiles designed to maximize daylight openings. Ideal for office fronts, interior vestibules, storefronts, and other shared environments, LiteSpace helps create open, welcoming spaces while maintaining a clean, modern aesthetic.

LiteSpace is a demountable system engineered with innovative snap-in profiles which supports easy installation and future floor plan reconfigurations. It is installed into finished openings and is constructed with high-quality aluminum ensuring durability and longevity.

Combining flexibility, natural light, and refined design, LiteSpace is a sophisticated solution for modern interior environments where adaptability and visual appeal are essential.

SYSTEM FEATURES

1	Minimal rectilinear design with 1-3/4" face. Overall depth of 2-3/8".
2	Integrated door stop for swing doors.
3	Pre-machined and reinforced for hardware in accordance with the door hardware schedule.
4	No exposed clips for member to member connections.
5	Mohair or vinyl door gasket in black or grey coordinates with framing finish color.
6	Vinyl glazing bulb grey or black to match framing finish color.
7	Vertical and horizontal aluminum mullions. Surface applied mullions are also available.
