Acoustic Options
Configurations up to STC 35

Versatile and Customizable
Fascia and finish options, in stock and custom doors

Fast & Easy Installation
Made-to-order size, pre-drilled, pre-loaded sliding hardware

Unlock a new dimension of versatility with the Special-Lite® SpecSlide Surface-Mounted Sliding Door System. Designed for challenging environments, this surface-mounted sliding door system redefines durability and aesthetics. Whether it's for offices, consultation rooms, or hallways, SpecSlide transforms traditional door openings, maximizing square footage and helping ensure ADA compliance.

With a simplified installation process, SpecSlide strikes the perfect balance between style and practicality, making it the preferred choice for architects and building owners. Tracks come pre-loaded with sliding hardware, and the track and receiver channel are pre-drilled to save on install time. The robust 2-piece receiver channel and exclusive Hawa SoftMove hardware enable locking functionality and smooth operation, while hidden fasteners ensure a clean appearance.

SYSTEM FEATURES

1	Exclusive Swiss-designed Hawa SoftMove triggerless sliding hardware overcomes the most common sliding door system component needing repair.
2	Track arrives pre-loaded with sliding hardware, the wall cleat and receiver channel are pre-drilled, and fasteners are included for quick and easy installation.
3	Sturdy 2-piece receiver channel stands strong even in challenging environments and accommodates a variety of locking hardware - including electrified.
4	End caps with hidden fasteners provide a clean appearance.
5	Aluminum cased opening frame accommodates a variety of wall depths, or installs directly over a finished opening.
6	Mohair seal integrated into the track and receiver channel dampens sound.
7	Concealed floor guide features a rattle-resistant design for smooth operation.
