INTERIOR ALUMINUM FRAMED DOORS

Special-Lite's Interior Aluminum Framed Door adds privacy to your interior spaces

Each door is custom fabricated with a combination of hands-on craftsmanship and advanced manufacturing technology, so you can be assured that every door will deliver precise fit, perfect function, and long life.

Our SLI doors are engineered to integrate with Omega and LiteSpace Interior Framing, SpecSlide Surface-Mounted Sliding Door System, as well as other manufacturers' systems. In fact, these doors are ideal for any interior framed opening designed for a 1-3/4" door. Whether you choose the SLI-12 Narrow Stile, SLI-14 Medium Stile, or the SLI-15 Wide Stile, the best value in a durable full vision interior door is a Special-Lite® Interior Aluminum Door.

Features & Benefits

Design Features for Long Life
