Special-Lite®

# SANDSTONE TEXTURE FRP FINISHES

Explore high-performance, durable, Sandstone Texture FRP finishes for doors and architectural panels, available in a range of prominent architectural colors that are easy to clean and sanitize.

## Sandstone Textured Finishes

Choose a low-maintenance, attractive, fine-grained Sandstone Texture FRP finish. This durable FRP provides benefits like corrosion, scratch, and dent resistance. No painting or repainting is required, and FRP will not rust or rot. FRP can be cleaned with just soap and water to help maintain its appearance.

Special-Lite offers various Sandstone Textured finishes which can be coordinated with our Pebble Grain through-color FRP, as well as our Paint Colors. Door edges and FRP lite kits can be painted to match the face sheet color if desired.

## Finish Samples

Finish samples are available in the colors shown. To order samples, scan the QR code on the back of this brochure.

## Custom Sandstone Texture FRP Finishes

We can create custom through-color FRP to match Special-Lite colors not listed or another custom color of your choice for orders of 250 doors or more. Sandstone Textured FRP face sheets can also be painted, please refer to our Painted Finishes Brochure for standard paint color selections and custom paint color information.
