SAVE VALUABLE SPACE WITH SLIDING DOORS

For over 50 years, Special-Lite has been a trusted leader in high-performance, durable door systems for commercial applications.

Meet our SpecSlide Surface-Mounted Sliding Door System: The latest addition to our Sliding Door System line, created for demanding environments.

We designed SpecSlide to relieve common installation and maintenance headaches experienced with other sliding door systems for the ultimate ease of install and long-term durability.

Space Requirement Comparison:

Elevated Design

A beautiful, modern, space-saving solution: Our exclusive design features hidden fasteners for a clean appearance. Choose from square or sloped track fascia.

Proven Durability

Tested to over 300,000 cycles, our system is designed for durability. A sturdy receiver channel and exclusive Soft Move hardware eliminate common challenges, ensuring smooth operation and secure locking functionality.

More Options

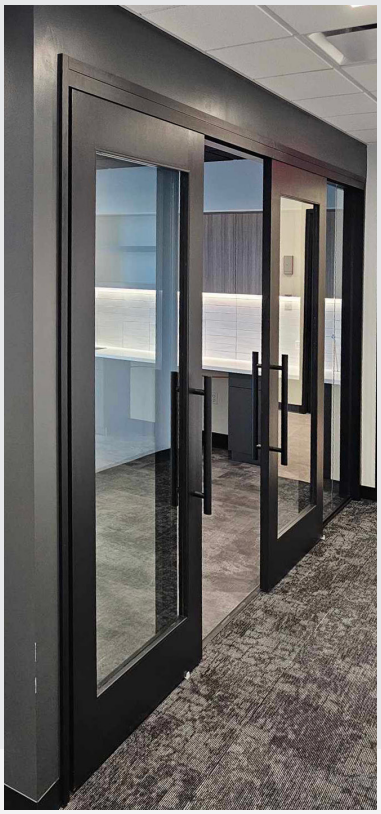

Finishes include anodized, painted, and wood grain, with Clear and Black Anodized in stock. Select from standard wood doors or our durable Aluminum, Hybrid FRP, or Fiberglass Doors with multiple sidelite options.
