

Kynar® Paint Colors Match Our Rustic Wood Grain Stains

Every Rustic Wood Grain Stain Has a Complementary Kynar® Paint Color

Special-Lite Colonial Wood Grain (SL-18) and Rustic Wood Grain (SL-19) FRP/Aluminum Hybrid Doors achieve the rich look of real stained wood without all the disadvantages of real wood. Specify an anodized aluminum finish to faithfully harmonize with any of our wood stain colors to complete the effect.

In addition to the six anodized aluminum finishes we traditionally offer, vision lite kits, stiles and rails are available in Kynar colors to complement our standard Rustic Wood Grain stain colors. These finishes are also available on all of our framing and panel products for an inviting, color-matched entrance.
