

INSTALLATION INSTRUCTIONS

Smoke Seal Application for the Smoke-Rated SL-15

IMPORTANT: Read all instructions before beginning installation.

Special-Lite provides these instructions to help prevent installation problems caused by most common errors. They are not intended to be a foolproof and suitable for every situation. There are many variations of installations not covered in these instructions that Special-Lite assumes are general construction knowledge to an experienced installer. Selection of an experienced installer is the sole responsibility of the project owner or responsible party. Failure to follow good practice in installation will void the warranty on Special-Lite products.

If you have any questions about installation techniques for your particular project, please call 1-800-821-6531 and ask for a Special-Lite Customer Service Representative.

You can find these and other Installation Instructions on Special-Lite's website at www.special-lite.com.

The SL-15 is available with a Smoke and Draft Control "S-Label" rating. If this option is selected, these openings will come from the factory with all the necessary Category H Smoke and Draft control gaskets to be applied in the field (Pemko HSS2000 x S88). These smoke and draft control gaskets must be applied to meet the smoke rating.

(Note: Existing SL-15 models in the field cannot be retrofitted for the S-Label Rating)
