

# Say Goodbye

to Hollow Metal Problems for Good!

**HMR-FRP**

Find out more:

## HOLLOW METAL REPLACEMENT FRP DOOR

Never deal with rusted or dented metal doors again! The Hollow Metal Replacement FRP Door is made from durable, low-maintenance FRP. It's built to last and ready to install as is—no painting required.

**The best hollow metal replacement door isn't metal, it's FRP.**

Light Grey  
Through-Color FRP  
Door Face (.120")

Ready to Install  
**No Painting  
Required!**

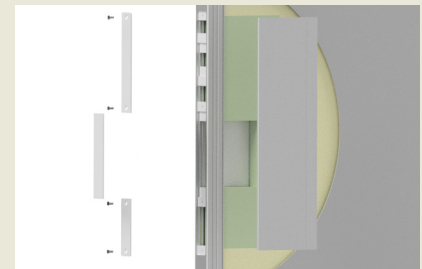

### Rust Free

We build doors with resilient materials like aluminum and FRP that do not rust or rot.

### Thermally Efficient

Exterior doors and frames play an important role in your building's energy efficiency.

### Adjustable Lock Pocket

Patented adjustable lock pocket supports common commercial hardware sets.

# Comparison

## Hollow Metal Door vs. Hollow Metal Replacement FRP Door

Staying within budget is the priority of managing any commercial facility. However, selecting your doors and frames based solely on the lowest initial cost won't save you long-term. Expenses escalate after installation, and in many cases, hollow metal doors need to be replaced every three to six years! Our Hollow Metal Replacement FRP Door gives you reliability, peace of mind, and security combined with a clean, rust-free look for years to come.

	Hollow Metal Door		Hollow Metal Replacement FRP Door
	Regular maintenance and repainting required.		As maintenance free as a door can be!
	Rusts, rots, and warps under the elements.		Will not rust, rot, or warp.
	Field finish easily scratches and prone to dents, heavier gauge needed to resist denting. Non-structural core materials.		Resists dents and scratches, with tough through-color FRP door face and injected high-density structural foam core. Lightweight.
	Door problems can cause damage to framing and expensive hardware.		Reliable, secure operation with lightweight flexible strength that is easy on hardware.
	Up to 2-year warranty (if painted).		5 year warranty, Lifetime against corrosion.

### Applications

A perfect fit for replacing standard-sized steel or hollow metal doors in the following applications:

- Retail and shopping centers
- Restaurant back-of-house
- Warehouses and manufacturing facilities
- Event centers, fairgrounds, and outbuildings
- Maintenance entrances and access doors
- Anywhere a standard-sized hollow metal door would be exposed to the elements.
