

FINISH OPTIONS

PAINTED FINISH SELECTIONS

Whether you are specifying a painted fiberglass or FRP product or customizing aluminum doors, frames, or components, Special-Lite has high performance, factory-applied coatings in a wide range of colors for your project.

Standard Painted Finish Selections

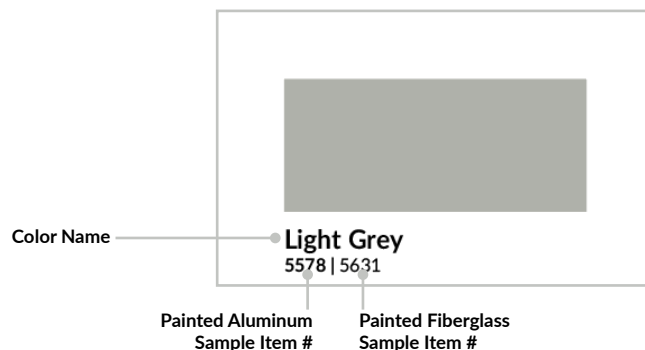

Choose a painted finish that will look beautiful for years to come. Our durable, factory-applied painted finishes come in a Satin sheen, with a Gloss sheen option available by request on some products.*

Special-Lite offers 20 Standard Paint Colors which coordinate with each of our Sandstone Texture and Pebble Grain through-color FRP face sheet color selections, as well as our Anodized Aluminum finishes. We also have established 10 Wood Grain Stain Match Paint Colors for our wood grain FRP face sheet standard stain color options. Wood Grain Stain Match Paint Colors are commonly used for components such as vision lite kits, door edges, frames, and more.

For your ease of coordinating with Special-Lite colors across your project, we have established Coordinating Paint Codes for our standard colors to coordinate with existing colors from popular paint manufacturer brands. Check the chart on the last page of this document for Coordinating Paint Color Codes.

Painted Finish Samples

Painted finish samples of our Standard Paint Colors are available on smooth aluminum and smooth fiberglass/FRP. For your ease of ordering, we have included the sample item numbers for both Painted Aluminum and Painted Fiberglass/FRP finish samples. To order finish samples of our Standard Paint colors, contact your local Special-Lite Sales Representative (special-lite.com/rep-locator/) or order online.

Custom Color for Painted Finishes

Whether you are looking to match an existing finish, or have a specific color in mind, we offer custom color painted finishes and color matching. Custom color and color matching are available at an additional cost and lead time. There are two options based on the type of color match you need:

Industry Standard Paint Color Selection

- Specify paint manufacturer's name, paint name and number; color samples are not required
- Industry standard paint colors accepted: Sherwin Williams, PPG, Benjamin Moore, Valspar, RAL, and Pantone
- Painted samples by Special-Lite of industry standard colors are optional and available for an additional charge

Custom Color Match

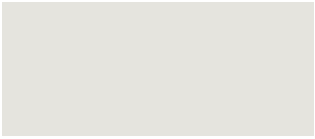

- Send in a physical sample to be matched
- Samples sent in to match must be a minimum of 4 sq. in., weigh less than 5lbs, and be on a comparable substrate (no organic materials)
- Custom color matching requires physical sign off for approval on painted color match samples provided by Special-Lite, signed samples must be received via mail by Special-Lite prior to beginning production

Touch-Up Paint

Matching touch-up paint is included with every painted order, whether you select a standard or custom paint color on aluminum or fiberglass/FRP. For additional touch-up paint needs, please contact our Customer Service department at 800-821-6531 or info@special-lite.com for assistance.

*Additional cost and lead time may apply

Design with Special-Lite: Coordinating Paint Color Codes

For the ease of coordinating with Special-Lite colors across your project, we have established Coordinating Paint Color Codes for our standard colors to indicate the closest existing colors of popular paint manufacturer brands. These are not considered to be exact color matches; please make final selections from physical finish samples.
