

# Try Me: Special-Lite® Bathroom Partitions

Sometimes seeing is believing! Special-Lite offers a “Try-Me” program for Bathroom Partitions, so you can experience our low-maintenance, made-to-order bathroom solution at no cost to you. Try our Bathroom Partitions in your worst bathroom, we know you will love the performance and ease of installation!

**Resists  
GRAFFITI**

Our exclusive SpecLite 3® FRP technology provides a sealed surface that puts up with use and abuse over time, and even repels graffiti! Remove graffiti vandalism quickly with just a wipe—the best way to discourage future attempts.

**Resists  
CORROSION**

We build our Bathroom Partitions with resilient materials like aluminum and FRP that cannot rust or rot. With a moisture-proof construction that is easy to clean, you can even use our partitions in your shower stalls.

**Tested and Proven  
DURABILITY**

Our products have been put to the test in some of the most challenging real-world applications, and endure for decades. Our bathroom partitions bring the same proven durable construction to one of the most challenging rooms in your building.

## Before & After:

**BEFORE:** Exposure to liquids causes rust and creates sanitizing challenges. Metal panels have been bent and vandalized with permanent marker.

**AFTER:** The bathroom is renewed with ultra durable Special-Lite Bathroom Partitions. Easy to clean and no issues with rust or graffiti removal!

## Why Choose Special-Lite?

Special-Lite® Bathroom Partitions are built to survive. Lightweight and strong, these partitions also put less stress and strain on hardware and wall attachments, as well as lightening the load for installation crews!

Engineered as tough as our legendary doors and made with the same materials, they deliver years of dependable service with minimal maintenance while looking great. Put an end to constant painting, repairs and budget-busting replacements.

## Let Us Prove it to You!

We're confident our bathroom partitions are the best. We'll even give you a free set to try!
