## Solutions for Airports

### High-Performance Doors, Frames, and More

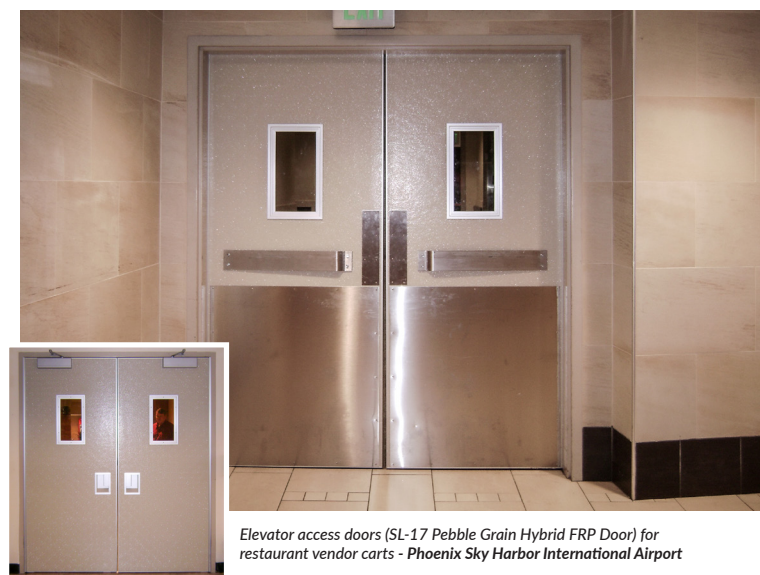

Keep your facility secure and functional with Durable Special-Lite Doors and Frames!

Airports require reliable doors that can withstand heavy use, frequent cleaning and sanitizing, and high security demands. Our doors and frames are the perfect solution for managing the constant flow of passengers and luggage, and employees and carts. Don't settle for basic, unreliable doors in your airport. Upgrade to Special-Lite Doors today and experience the benefits of increased security, durability, and easy cleaning!

## Airport Facility Challenges

Doors and frames at Airport Facilities can face a variety of challenges due to this unique, high-use environment:

- 1. High Traffic:** Airports are high-traffic buildings with large numbers of passengers, staff, and vehicles moving throughout them every day.
- 2. Security:** Your facility has high security requirements to protect against terrorist threats and other security risks.
- 3. Cleaning and sanitizing:** High traffic facilities like airports require frequent cleaning and sanitizing to maintain hygiene standards.
- 4. Climate control:** You need to maintain a comfortable environment inside your buildings regardless of the weather outside.
- 5. Maintenance:** Airports are open 24/7, and downtime can be costly! Doors and frames need to be designed for ease of maintenance to minimize disruptions to airport operations.

## Choose Solutions Designed for Your Facility

These challenges highlight the importance of choosing high-quality doors that are specifically designed for airport environments. By working with experts who understand the unique challenges of airports, air traffic control towers, hangars, and maintenance facilities, you can ensure that your doors provide reliable performance and security while complimenting your building's design.

Hangar doors with AF-100 Pultruded Fiberglass Doors & AF-150 Fiberglass Framing - Helicopter Hangar Building 997 (U.S. Army), Kwajalein Atoll, Marshall Islands

## Doors & Frames for Airport Facilities

We help keep your facility looking clean and welcoming without spending hours on maintenance, repair, or refinishing! Our partitions, doors, and frames are remarkably durable; we designed them to endure the heavy use and abuse your facility experiences. They're also perfect for corrosive environments that quickly degrade steel doors, frames, and partitions.

**Before & After:**  
**Sacramento International Airport Terminal Service Entrance**

**BEFORE:** High traffic damages commonly used hollow metal doors, which require frequent maintenance and repainting. Note the problem areas at the bottom and between doors.

SL-20 Sandstone Textured Hybrid FRP Door

**AFTER:** Easy-to-clean FRP doors; no repainting required! Integrated weathering options. Installing doors that are designed for your facility saves time and money!

## Why Choose Special-Lite?

- Durability:** Our products withstand heavy use and potential impacts, making them ideal for high traffic areas.
- Easy to Clean:** Our FRP-faced doors are easy to clean and sanitize, and the hygienic surface won't harbor bacteria or mold.
- Energy Efficiency:** Our doors have excellent insulating properties, which can reduce energy consumption and lower costs.
- Security:** Select doors that can resist impacts, vandalism, and break-ins, helping to ensure the safety and security of your airport facility.
- Customization:** Choose from various colors, finishes, and hardware to match your facility's aesthetic and functionality.
- Warranty:** Experience peace of mind with an uncomplicated, 10-year, 100% parts & labor warranty.

## Get Started Today

Our team will work with you to design and install the perfect door, frame, or partition solution for your Airport. We take pride in ensuring that your doors and partitions remain fully operational while looking great for years to come!
