

Solutions for **Pharmaceutical Production**

Durable Doors and Frames for Cleanrooms and More

Maintain the integrity of your facility with Special-Lite® Doors and Frames!

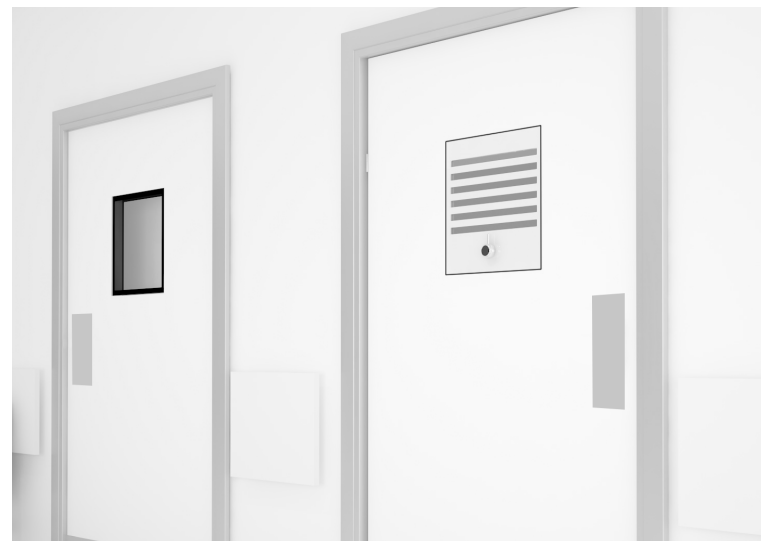

We understand the importance of reliable and hygienic door systems in pharmaceutical manufacturing environments. Our high-quality doors and frames provide durability and longevity, even in the most stringent conditions. Ideal for production zones, laboratories, and other pharmaceutical facility areas where safety, cleanliness, and security are top priorities, our doors are available in various configurations and can be tailored to meet your specific requirements.

Special-Lite Fiberglass Doors and Frames are FDA and USDA cGMP Compliant.

Pharmaceutical Facility Challenges

Doors and frames in pharmaceutical manufacturing facilities face a variety of unique challenges:

- 1. Cleanliness and Hygiene:** Pharmaceuticals require the highest level of cleanliness and sterility. Doors and frames must facilitate easy cleaning and disinfection to meet stringent regulatory standards.
- 2. Regulatory Compliance:** Pharmaceutical facilities are subject to strict regulations. Doors and frames must meet these standards, such as compliance with Good Manufacturing Practices (GMP).
- 3. Security:** You require strict access control to safeguard valuable research, products, and intellectual property. Doors must provide enhanced security and access control features.
- 4. Durability:** Frequent cleaning, high traffic, and the use of cleaning agents can lead to wear and tear. Doors and frames must be durable and able to withstand these conditions.

Complete your completely sealed door with a Flush Vision Panel for a line of sight or a Privacy Flush Vision Panel for adjustable privacy.

Choose Solutions Designed for Your Facility

These challenges emphasize the importance of selecting high-quality doors and frames specifically engineered for pharmaceutical manufacturing environments. Working with experts who understand these unique challenges is essential to ensure that your doors provide reliable performance, security, and cleanliness while meeting regulatory, contamination control, and access control needs.

Doors & Frames for Pharmaceutical Production

Ensure the integrity of your pharmaceutical manufacturing processes while maintaining cleanliness and compliance with Special-Lite Doors and Frames. Crafted from top-quality materials, our doors and frames resist corrosion and are designed for easy cleaning and disinfection. Whether you are establishing a new pharmaceutical manufacturing facility or upgrading an existing one, our doors and frames are the ideal choice, from secure entrances to cleanrooms and sterile environments.

10 Reasons to Choose Special-Lite Doors and Frames:

- Hygiene and Sterility:** Our Cleanroom Doors and Frames are designed to meet the strictest hygiene and sterility requirements, facilitating easy cleaning and disinfection.
- Compliance:** Ensure compliance with pharmaceutical industry regulations, which often include cGMP standards, by choosing Special-Lite Doors and Frames.
- Security:** Enhance the security of your pharmaceutical manufacturing facility with secure doors that can be paired with access control systems. Add door security accessory options like grates, lite kits, glazing options, and more.
- Durability:** Our doors and frames are built to withstand heavy use, impacts, frequent cleaning, and other challenges common to pharmaceutical manufacturing.
- Low Maintenance:** Special-Lite Door Systems require minimal maintenance, reducing ongoing costs.
- Energy Efficiency:** Improve energy efficiency and maintain controlled environments with our thermally rated products.
- Customization:** Special-Lite Doors and Frames are made to your specifications, tailor them to match your facility's aesthetics and functionality requirements. Choose from many customization options including oversized capabilities, monorail cut outs, louvers, and custom colors.
- Hygienic Accessories:** Complete your door system with accessories like Flush Vision Panels, with or without operable internal privacy blinds.
- Specialty Rated Products:** Choose your level of protection with our Specialty Rated Products, including: Forced-Entry Resistant, Bullet-Resistant, Blast Resistant, and Hurricane/Impact-Rated door system configurations.
- Warranty:** Experience peace of mind with a straightforward 10-year, 100% parts & labor warranty, and a limited lifetime warranty against corrosion and more.
