

SLIDING DOOR SYSTEMS

For over 50 years, Special-Lite has been a trusted name in providing high-performance doors for a variety of commercial applications. Special-Lite® Sliding Door Systems are designed to offer a durable, beautiful, space-saving solution, with a range of customization options to suit your project.

SPACE SAVING SOLUTIONS

aesthetics + functionality

Unlock Space Savings with Sliding Door Systems

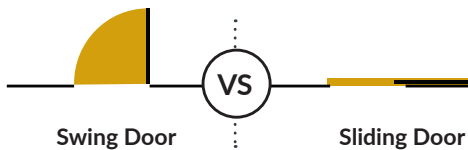

Sliding Door Systems reduce the space requirements of door openings, providing more valuable square footage for offices, consultation rooms, hallways, and more. Beyond their streamlined aesthetic and ease of ADA compliance, they also offer a simplified installation process.

It's easy to see why sliding doors have become the go-to solution for architects and building owners, striking a perfect balance between style and practicality. They are especially popular for maximizing available space within existing buildings.

At Special-Lite, we take Sliding Door Systems to the next level with added durability, ease of installation, and more customization options. As your trusted partner, we stand behind all of our products with warranties that work and outstanding customer service.

Space Requirement Comparison:

What sets Special-Lite® Sliding Door Systems apart?

- **More Door and Hardware Options for One Source Simplicity:** Order from one source with a variety of standard wood and aluminum doors, Special-Lite exclusive door options, locking hardware, pulls, and more. If your project requires swing doors, we can provide those too!
- **Frames and Sidelites to Suit Your Openings:** Skip the door frame with our surface-mounted system. Or choose from a number of aluminum framing options to suit your space, from drywall rough openings, to between finished walls. All are stocked in Clear and Black Anodized.
- **More Custom Options:** Customization is what we do! Choose from special anodizing colors, standard or custom paint colors, or wood grain decorative finish on aluminum. Customize doors with vision lites and hardware to match your aesthetic and functionality requirements.
- **Durability:** We are known for durability, with exclusive door options built to last. Our sliding door systems are made with durable, corrosion-resistant aluminum with high-performance finishes. Our premium sliding, soft close, and door hardware complete the package, providing enduring beauty and value.
- **Details Matter:** Our Sliding Door Systems provide a clean, modern appearance with hidden fasteners and concealed floor guides.

APPLICATIONS

- Offices
- Healthcare
- Salons & Spas
- Financial Institutions
- Mixed Use & Retail
- Schools & Universities
- Pharmaceutical
- Animal Care
- Hospitality
- Childcare

Choose your Sliding Door System:

SpecSlide™ Surface-Mounted Sliding Door System

The SpecSlide Sliding Door System is a beautiful, durable, space-saving solution created specifically for demanding environments. A sturdy receiver channel and exclusive Hawa SoftMove hardware ensure smooth operation and secure locking functionality. Featuring hidden fasteners for a clean appearance, the system has standard square and optional sloped fascia profiles. Select from wood doors or our durable Aluminum, Hybrid FRP, or Fiberglass Doors. Includes an aluminum cased opening frame that wraps the wall, but can be used with sidelites or installed over a finished opening with no frame.

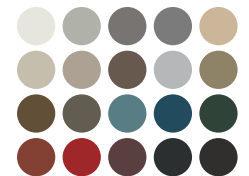

In-Stock Anodized Finish Options:

Special Anodized Finish Options:

Painted Finish Options (or choose a custom color):

Wood Expressions Aluminum Finish Options:

Omega™ Flush-Mounted Sliding Door System

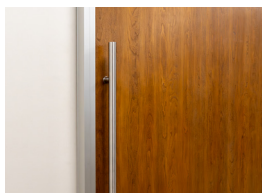

The Omega Sliding Door System is a flush-mounted system with sidelite framing that wraps the wall and provides a finished look to unfinished drywall openings. This inset sliding door system is designed for 4-7/8" walls, with true and applied mullion options. Door options include wood doors or our durable Aluminum, Hybrid FRP, or Fiberglass Doors. Hardware options include ladder pulls and locking ladder pulls (floor or top).

LiteSpace® Sliding Door System for Demountable Walls

The LiteSpace Sliding Door System is designed to be used with our LiteSpace aluminum-framed office walls. LiteSpace is a flexible demountable system featuring minimal aluminum profiles. Installed within finished openings, LiteSpace helps create inviting spaces with glass walls for office fronts or conference areas, with glass returns, corners, and mullion options. Available with Aluminum Doors, wood doors, or glass doors by others. Hardware options include ladder pulls and locking ladder pulls (floor or top).

Choose from nearly unlimited options to complete your Sliding Door System:

Standard Wood Doors or Wood Grain FRP Doors

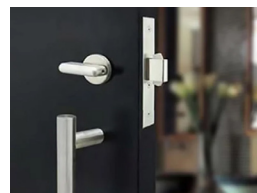

Aluminum, Hybrid FRP, or Fiberglass Doors

Aluminum Framed Doors

Anodized, Painted, & Wood Grain Aluminum Finishes

Vision Lites, Locking Hardware, & Pull Options

Why Choose Special-Lite?

50+ years manufacturing custom, high-performance doors & frames

We've built a reputation for doors that survive for decades in even the toughest commercial and industrial applications.

Single source simplicity

Enjoy the convenience, reliability, and performance advantages of having your doors, frames, and more supplied by a single source.

We stand behind our products

Experience peace of mind with our no-hassle warranties and exceptional customer service.
