

6-Panel Hybrid FRP Doors (SL-18) customized to match historical attributes.

## Solutions for Municipal Facilities

### Durable, Rust-Free Doors, Frames, and More

#### Special-Lite® Doors and Frames: Custom and Secure Solutions

Our doors, frames, and bathroom partitions are engineered to endure heavy use, offering resilience against the elements while requiring minimal maintenance. Special-Lite is the ideal choice for municipal buildings, providing reliable, durable, and low-maintenance door systems and bathroom partitions that stand the test of time. Elevate your facilities today to ensure lasting quality and functionality.

## Government Building Challenges

Doors, frames, and bathroom partitions in government and municipal buildings face distinct challenges associated with their environments:

- 1. Weathering & Corrosion:** Exposure to elements, like weather and pollution, can lead to issues like rust, corrosion, and warping.
- 2. Vandalism & Security:** Government buildings need to be secure; it is crucial to protect against vandalism and unauthorized access. Forced entry, bullet-resistant, or blast protection are other considerations.
- 3. Durability:** Municipal buildings often experience high foot traffic, creating wear and tear on doors, frames, and bathroom partitions.
- 4. Temperature Control:** Maintaining a comfortable environment inside buildings is essential, and doors play a critical role in regulating temperatures and saving energy.
- 5. Historic Replication or Retrofit:** Municipal buildings may require solutions that replicate historic aesthetics and retrofit existing structures to maintain architectural integrity.

Monumental Aluminum Door (SL-15) on a municipal building.

## Choose Solutions Designed for Your Facility

These challenges underscore the necessity of selecting high-quality doors, frames, and bathroom partitions designed specifically for municipal and government buildings. Collaborate with experts who understand the unique challenges of your facility to ensure that the chosen products offer reliability, security, and durability while meeting weather resistance and maintenance requirements.

Omega® Interior Aluminum Framing

6-Panel Wood Grain Hybrid FRP Doors (SL-18)

Pebble Grain Hybrid FRP Doors (SL-17)

Wood Grain Hybrid FRP Doors (SL-18, SL-19).

## Why choose Special-Lite?

- Durability:** Our doors, frames, and bathroom partitions are engineered to withstand high-cycle use and impacts, making them ideal for high-traffic areas.
- Low Maintenance:** FRP and aluminum don't require painting or re-painting and are resistant to scratches, dents, and other damage.
- Security:** Opt for doors that resist impacts, vandalism, and break-ins, enhancing the safety and security of your buildings. For additional protection, choose from bullet-resistant or blast-rated solutions.
- Customization:** From historic replication to modern minimalism, choose from a variety of colors, finishes, and hardware to match your facility's aesthetic and functionality.
- Warranty:** Experience peace of mind with our no-hassle warranties. We stand behind our products!

## Get Started Today

Our team is ready to collaborate with you to design and install the perfect door, frame, and bathroom partition solutions for your facilities. We're committed to helping ensure your doors and frames remain operational and visually appealing for years to come!
