

SpecSlide®

Self-Close Surface-Mounted Sliding Door System

Find out more:

Automatic Closing for Added Convenience, Safety, and Security

The SpecSlide Surface-Mounted Sliding Door System with Self-Close combines the space-saving and durability advantages of the SpecSlide system with automatic closing functionality.

An integrated mechanical spring closer returns the door to the closed position after each use, helping improve privacy, security, and environmental control.

For projects requiring smoke and draft control, SpecSlide is also available with a UL 1784 S-Label Smoke-Rated configuration.

Ideal Applications

- Healthcare Facilities
- Hospitality Environments
- Senior Living
- Private Offices
- Consultation Rooms
- Education Facilities

Automatic Closing

The integrated mechanical spring closer automatically returns the door to the closed position after use, helping ensure openings remain closed when needed.

Smoke-Rated Option

Available as a UL 1784 S-Label Smoke-Rated configuration with specialized sealing components for applications requiring a smoke rating.

Space-Saving Design

Enjoy the functionality of a self-closing door while eliminating the swing clearance required by traditional hinged doors.
