Special-Lite®

WOOD GRAIN FRP FINISHES

Discover the beauty of ultra-realistic wood grain finishes with the durability of FRP. Our expertly crafted stains are designed specifically for FRP face sheets, offering a long-lasting, low-maintenance solution that won't rust or rot while capturing the timeless look of natural wood.

Wood Grain FRP Finishes

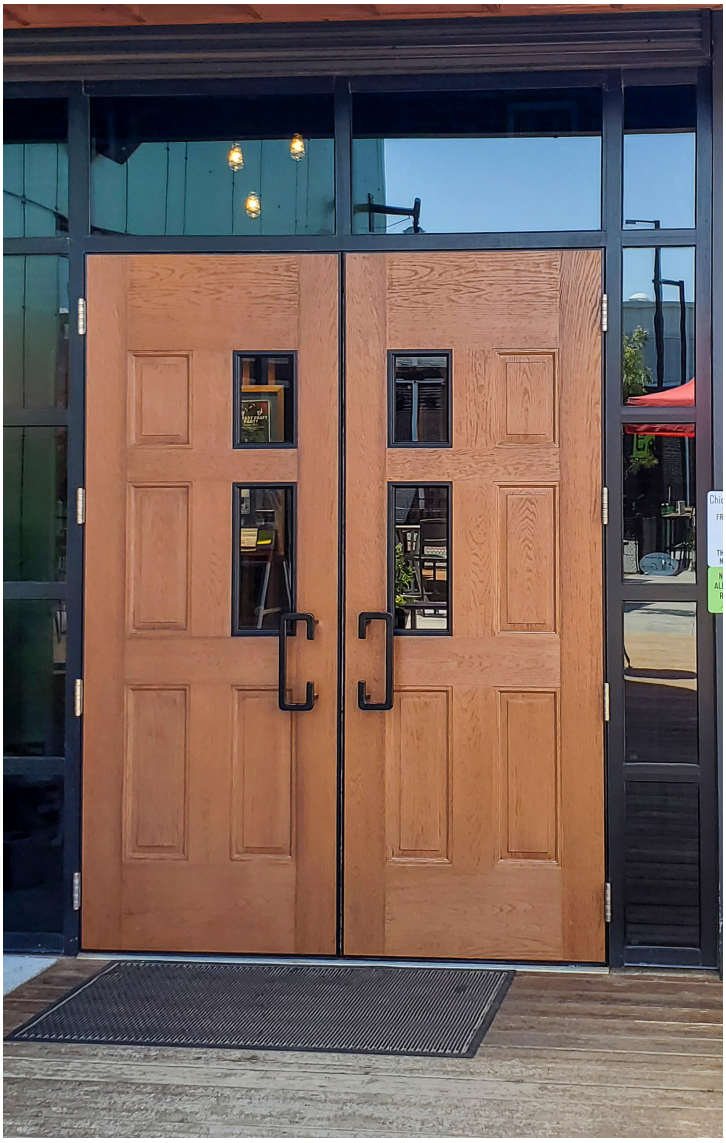

Achieve the beauty and aesthetics of wood paired with the robust performance of FRP. Special-Lite's Wood Grain FRP face sheets offer a low-maintenance, moisture-resistant solution that won't rust, rot, or warp, making them ideal for high-traffic environments such as restaurants, colleges, and churches.

Realistic Wood Grain Textures
We offer ultra-realistic wood grain FRP options to meet your design needs. Rustic, available in flush or 6-panel, features a deeper, more pronounced grain texture created with oak wood. Contemporary, modeled after cherry wood, is a more fine-grained texture. **Please note the different item numbers when ordering finish samples.**

Our wood grain stains are created specifically for our FRP face sheets to ensure a durable and long-lasting finish. Each finish is hand-applied by skilled craftspeople to deliver the natural look of real stained wood. For added customization, we also offer custom stain colors. Painted finishes are also available, and can provide additional UV resistance, making it an excellent option for doors exposed to direct sunlight or harsh environmental conditions.

Finish Samples

Finish samples are available in the colors shown. For painted Wood Grain FRP face sheet options, please reference our Painted Finishes Brochure for more information on paint selections. Scan the QR code to request your samples.

Wood Grain Stain Colors
